

Competition Schedule and Guide for Competitors

5 November 2025

ESTABLISHED 1933

National Fruit Show

It's never been easier to enter!

The route to success from the Chairman of Judges

This is how easy it is...

STEP 1

Selection of fruit.

From the orchard, bin or straight off the grader.

STEP 2

Packing 3 trays.

Mark trays, A, B and C. Only tray A will be judged in depth. Trays B and C must be the correct size and uniform in colour as tray A. All blemishes and marks in these 2 trays can be hidden.

NEW CLASSES FOR 2025:

Tastiest Apple

5 apples per entry must be submitted separately to your other classes.

Harlequin Fit for a King

A mixed tray containing at least 2 varieties of fruit, see below as an example.

After a very successful one-day Show last year, we hope to see as many entries as possible in 2025 to make the spectacular display of apples and pears which is unique to the National Fruit Show. I would like to encourage all growers, especially those who have not entered before, to support the Show with as many entries as you can.

We are pleased to bring back the Tastiest Apple class and have introduced a new Harlequin Fit for a King class to showcase the beauty and diversity of a mixed tray of fruit. This class is an opportunity use spare fruit from your other entries.

Remember for every 3 entries you will have a ball in the Bonanza draw and It has never been easier to prepare an entry as only the tray marked A will be scrutinised by the judges.

We thank our generous sponsors for their support to the competitions. Our judges have a lot of work on the day before the Show opens and their hard work, patience and diligence is much appreciated by the Society.

I wish all entrants the best of luck in this year's competition and we look forward to seeing you at the Kent County Showground in November.

Jonathan Blackman, Chairman of the Judges

Guide for Competitors

Packing the Exhibition Tray

All entries must be of a single layer of fruit placed in cells of the appropriate size. Please note different varieties of apples and pears will require different sized cells, which must be selected to suit the size of fruit entered.

The size of fruit is mandatory in all classes, as follows:

Apples – 3 Trays per Entry

Bramley	Class 1 90-100 mm Class 2 80-90mm
Other Culinary Varieties	Class 3 75-100mm with 5mm differential
Dessert Varieties	65-70mm 70-75mm
Large Fruited Varieties	70-75mm 75-80mm
Harlequin fit for a King	Size for its variety

Pears– 3 Trays per Entry

Conference	60-65mm 65-70mm
Concorde	60-65mm 65-70mm 70-75mm
Comice	70-75mm 75-80mm 80-85mm
All other varieties	60-65mm 65-70mm 70-75mm 75-80mm 80-85mm

Fruit must be displayed with eyes to the top of the tray or alternatively on their side with eyes to the right.

Freedom from Disease and Pests

Spots due to any disease and scars caused by any pests are undesirable. In close competition it is necessary to take notice of very small blemishes. Anything affecting keeping quality is likely to be severely marked down.

Freedom from Bruise and Other Damage

Marks are likely to be lost in proportion to the extent of damage. Slight hail marks, container marks which do not cause discolouration, and other slight damage, will not be so heavily penalised as bruising and picking marks.

It is not essential for apples or pears to be ripe at the time of showing but they must be in such condition that a satisfactory stage of ripeness will eventually be reached. Points will be deducted if they are over-ripe or if, owing to their condition, they can never ripen properly.

The fruit must be firm; the judges will use a penetrometer as part of their assessment.

Skin Quality

This should be at least a minimum of Class 1 level and should be as uniform as possible within an entry. No other substance (such as wax or lacquer) should be applied to the surface of the fruit.

Uniformity of Colour

All fruits should be as alike as possible within an entry. The colour should comply with the Class 1 requirement for that variety. This includes background colour and reverse of the fruit.

Uniformity of Size and Evenness of Shape

All fruits within an entry should be as nearly the same size and shape as possible. The size range must be stated on the label. In ALL CLASSES there will be a quarter-point penalty for each fruit outside the size range up to a maximum of 15 points.

Important

Fruit should not be handled/re-arranged once it has been placed on the staging at the show although it can be adjusted whilst on the floor prior to staging.

Any infringement of these guidelines, such as displaying eye up or applying a substance to the surface of the fruit, will lead to a points deduction.
